Letter of Recommendation

It is my pleasure to recommend Mr Sanjay J, a final year student of BE CS (Artificial Intelligence and Machine Learning). I have had the opportunity to work with him through several student and institutional initiatives, where he has consistently demonstrated leadership, commitment, and professionalism.

Sanjay played an active role in organizing Kriya 2026, one of the flagship national-level technical symposiums of PSG College of Technology. He notably served as the moderator for the panel discussion titled "Mitigating Job Displacement in the Age of AI," engaging with distinguished panellists from government, industry, and technology sectors. His ability to facilitate meaningful discussions, communicate effectively, and confidently manage a high-profile session reflected maturity and strong interpersonal skills. The session marked a significant milestone as one of the first panel discussions conducted as part of Kriya.

Beyond this, Sanjay has consistently contributed to the student community through various leadership roles, including serving as Joint Secretary of the Computer Science and Engineering Association for two consecutive years. He has also been an active member of the Students' Union, Head of Events at the Cyber Security Club, and an Executive Member of Tamil Mandram. His dedication, organizational abilities, and willingness to take initiative make him a dependable leader and a valuable contributor to any team.

I wish him all the best and hope he will bring laurels to self and all.

Yours sincerely,

Dr Arumuganathan R
